

Make your largest single asset work for you, in retirement.

Allegro[®] finance from ASL will make your retirement a lot more comfortable.

“Asset rich, cash poor,” you say.....not any longer!

With Allegro[®] finance, retirees can access the equity in their homes at a reduced lending rate* compared to most banks or financial institutions. Interest is not payable until the end of the loan term, which may be upon death or entry to a nursing home.

There is no negative equity risk with Allegro[®] as finance is provided on 60% of the valuation of the home with the other 40% retained by the borrowers.

With low interest repayments calculated at the end of the loan and the capitalised increase in home values from year to year, retirees can now afford to stay in their homes much longer and enjoy all the benefits of a quality life in retirement.

If you would like to know more about the benefits of Allegro[®] finance, ring the Finance Team at ASL on 1300 275 275 or email finance@asltd.com.au.
